

BUILDING PRODUCT EVALUATION REPORTS

DEMONSTRATE CODE COMPLIANCE

An Evaluation Report is a publication where supporting data is evaluated to assist in the approval of materials or assemblies not specifically provided for in the building codes. For building product manufacturers, a PFS TECO *Building Product Evaluation Report* helps bring your product to market faster and with a name the industry trusts. Throughout the US and Canada, PFS TECO marks are an important and critical part of the broad code enforcement system that collectively helps to protect the public and the environment we all inhabit.

ABOUT PFS TECO BUILDING PRODUCT EVALUATION REPORTS

QUALITY

INTEGRITY

EXPERTISE

SERVICE

Demonstrating code compliance is essential in today's built environment and is necessary for products of all types, whether standard commodity or specialized products that are cutting edge and innovative. Manufacturers of specialized products look to code officials and the provision in the codes that permits the use of "alternative materials, design and methods of construction" for market access. But they also look to an accredited and recognized third-party agency like PFS TECO, whose Building Product Evaluation Reports provide necessary information to support the use of innovative building products in all types of construction. Our experienced and knowledgeable personnel work for, but also with, you every step of the way in the evaluation and listing of your innovative, state-of-the-art product.

PFS TECO is a one-stop shop for all of your regulatory approval needs. Our independence gives you real and tangible benefits, including objectivity and flexibility, which are critical if you want accurate and reliable testing, certification, and evaluation of the innovative construction materials you manufacture.

Why list your products with PFS TECO?

- Improved, simplified, fast-to-market process
- Unrivaled expertise in building products and materials
- Independence coupled with unmatched service

Accreditations include:

- ISO 17020 (Inspection)
- ISO 17025 (Testing)
- ISO 17065 (Certification)
